

Michigan Transportation Asset Management Council

TAMC Awards Recipients 2009-2019

Introduction

A primary objective of Michigan's Transportation Asset Management Council (TAMC) is to assist Public Act 51 agencies implement an asset management program for roads and bridges under their jurisdiction. To this end, the TAMC has facilitated statewide collection of system condition data, supported the development of tools and procedures, and sponsored training and educational sessions in the practice of asset management.

In 2009, as an effort to further encourage Public Act 51 agencies, the TAMC established the TAMC awards program to acknowledge those agencies and industry leaders that have incorporated the principles of asset management and adopted an asset management plan to help guide their investment decisions. In addition, the TAMC awards program provides agencies around the state with excellent case examples to establish their own programs. The following organizations and individuals have earned this recognition for their efforts.
